electronic

## Soft Starter with reversing function VersiStart II 9 PS [9A]

## Features:

( two-phase controlled soft starter with reversing function
$\rightarrow$ controlled by microcontroller
$\boldsymbol{\rightarrow}$ currentless reversing with relay, soft start with thyristors
$\Rightarrow$ overload protection
$\rightarrow 4$ potentiometers to adjust starting torque, stopping torque, acceleration /deceleration time and overcurrent limit
$\rightarrow$ electrically isolated 24 V inputs for clockwise / anti clockwise rotation
$\rightarrow$ reset via device panel or external reset switch

- 4 LEDs as status indicators
$\rightarrow$ current and torque reduction during start-up
$\boldsymbol{\rightarrow}$ integrated bypass relay
$\rightarrow$ integrated mains contactor
$\rightarrow$ ultra-slim compact design, width: $22,5 \mathrm{~mm}$
$\Rightarrow$ degree of protection IP2o

Soft Starter with reversing function VersiStart II 9 PS [9A] c $\epsilon$

## Function:

$\rightarrow$ soft start and soft stop
$\rightarrow$ reversing function
$\boldsymbol{\rightarrow}$ current monitoring

- blocking protection
$\rightarrow$ potential-free relay outputs for operational status
$\rightarrow$ signalling output programmable acc. to customer requirements

Option: (upon request)
$\pm$
special acceleration/deceleration time 0 ... is
$\Rightarrow$ motor protection variant

## Typical Applications:

reversing drive for door and gate control, bridge drives and hoisting gear with blocking protection conveying systems with blocking protection actuators in process technology with blocking protection points drives, others

| Typical designation | VersiStart II 9 PS |
| :---: | :---: |
| rated device current | 9A |
| mains / motor voltage acc. to DIN EN 50160 (IEC 38) | $200-480 \mathrm{~V} \pm 10 \% 50 / 60 \mathrm{~Hz}$ |
| motor rating at 400 V mains voltage | 4 kW |
| order number | 2S610.40009 |

Please observe supplementary sheet with dimensioning rules!

| Technical data | VersiStart II 9 PS |
| :---: | :---: |
| mains / motor voltage acc. to DIN EN 50160 (IEC 38) | $200-480 \mathrm{~V} \pm 10 \% 50 / 60 \mathrm{~Hz}$ |
| rated device current | 9A |
| motor rating at 400 V mains voltage | 4kW |
| power consumption | 2W |
| min. motor rating | 550W |
| operating mode | 9,0A: AC 53a: 6-2 100-30 |
| auxiliary voltage | $24 \mathrm{VDC} \pm 10 \%$ |
| acceleration time | $1 . . .10 s$ (special times available) |
| start voltage | $30 . . .80 \%$ |
| deceleration time | $1 . . .10 s$ (special times available) |
| restart time | 250 ms |
| $I^{2} t$-power semiconductor in $A^{2} s$ | 200 |
| overcurrent measuring unit | 5...50A |
| cross-sectional area for connetion | $0,34 \ldots 2,5 \mathrm{~mm}^{2}$ |
| switching capacity relay output open/close contact | 3A/230VAC; 1A/230VAC |
| ambient/storage temperature | - ... $60^{\circ} \mathrm{C}$ (derating) |
| weight / kg | 0,25 |

## Dimensions:

| Mounting dimensions | a | b | c |
| :--- | :---: | :---: | :---: |
| VersiStart II 9 PS | 22,5 | 105 | 120,3 |

All dimensions indicated in mm .
